Professional Summary

AI & ML undergraduate skilled in Python, Machine Learning, Data Analysis, and AI application development, passionate about building intelligent data-driven solutions.

Technical Skills

Languages: Python, C, SQL

Machine Learning: Linear Regression, Logistic Regression, KNN, Naive Bayes, Decision Tree, Random Forest, SVM, Clustering, Unsupervised Learning

Libraries: NumPy, Pandas, Matplotlib, Scikit-learn

Tools: Git, GitHub, VS Code, Jupyter Notebook, Google Colab, Streamlit, Linux/WSL

Concepts: DSA, OOP, Data Preprocessing, Feature Engineering, Model Evaluation

Education

Techno India University

2025–2028

B.Tech in Computer Science Engineering (Artificial Intelligence & Machine Learning)

Current: 3rd Year

Semester 3 SGPA: 8.26

Birla Institute of Technology, Kolkata

2022–2025

Diploma in Electrical Engineering

OGPA: 8.40 (83%)

Projects

FIFA World Cup Match Prediction

Python — Scikit-learn — Streamlit

Built a Logistic Regression model trained on **49.5K** historical matches with four engineered features; achieved **55%** accuracy on live FIFA World Cup 2026 validation, outperforming the **48.6%** baseline.

Movie Recommendation System

Python — Scikit-learn — Streamlit

Developed a content-based recommender using the TMDB 5000 dataset with CountVectorizer and Cosine Similarity to recommend the top 5 similar movies instantly.

Password Manager

Python — CustomTkinter

Developed a GUI-based password manager for securely storing and managing user credentials.

Experience

AI/ML Virtual Intern — EduSkills Foundation

Worked on data preprocessing, supervised and unsupervised learning, and developed machine learning models using Python and Scikit-learn.

Vocational Trainee — WBPDC, Bakreswar Thermal Power Plant

Gained hands-on exposure to industrial power plant operations, including boilers, turbines, generators, and switchyard systems.

Certifications

Google for Education AI Masterclass (2026), Qualcomm AI Technical Foundations, Deloitte Data Analytics Job Simulation (Forage), AI/ML Virtual Internship (EduSkills Foundation), Coursera: Python Data Structures (University of Michigan), Anthropic AI Professional Certificates

Certificate Portfolio: Google Drive
